

# Liquid, molasses based feed product

## MELABIND MV60

### TECHNICAL / GRANULATING BENEFITS

---

- Dust adsorption – optimizing moisture level. By improving pellet quality, facing with less breaks and dust, increased manufacturing efficiency
  - Binding
  - Flexibility
  - Granulating technology support
  - Easy to blend - optimal viscosity attributions
- 

Species	MelaBind MV60 blending ratio
Cattle	2-4%
Sheep	2-4%
Pig	2-4%
Poultry	0,5-2,5%
Rabbit	0,5-2,5%
Dog	0,5-2,5%

### DIET SPECIFIC BENEFITS

---

- Flavor enhancer effect: that is directly apparent on surface of mass feeds. This feature make them capable to upgrade even lower quality dry feeds.
  - Energy: byproduct of sugar industry, which is a renown source of energy and conditioner feed for animals.
  - Nutrition supplement: molasses stimulates rumen functions, improves appetite, increases dry matter and feed intake, assists digestion.

## MELABIND MV60

### MORE DURABLE AND TASTIER, EXCELLENT QUALITY FEED PRODUCTION MEANWHILE MINIMIZING PRODUCTION COSTS

Mixes of ARGOS FEED offer numerous advantages over molasses, easier handling and lower viscosity with keeping all positive attributes. Melabind MV60 is a liquid pelleting excipient with small mixing dosage, improves quality and taste of pellet, increases dry matter utilization and efficiency of digestion.

<b>Guaranteed nutrient values</b>		
	<b>In the original material</b>	<b>In 100% DM</b>
Moisture content	max. 55%	
Crude protein	7-10%	min. 15%
Total sugar	min. 27%	min. 46%
pH	6,0-7,0	
<b>Further nutrient values</b>		
DEs	8,5 MJ/kg DM	
MEs	8,0 MJ/kg DM	
MEb	7,5 MJ/kg DM	
MFE	60 g/kg DM	
MFN	115 g/kg DM	
Amino acids		
Total AS	11%	18%
LYS	0,8%	1,4%
MET	0,58%	1%
TRE	2,5%	4,3%
TRI	0,54%	0,9%

**Ingredients:** molasses, vinasse, water

Best before: for 2 months
