

MV Candy Pig Syrup

High sugar content liquid feed supplement for pigs

Application:

For lactating sows, especially after farrow, for milk production and improving animal condition, and to supply energy needed for re-oestrus.

For improved energy intake to ensure better fertility during preparing for insemination.

To increase energy concentration in rations of fattener pigs. to improve liveweight gain and feed conversion.

Features:

- ◆ Fruity scent
- ◆ Faster feed intake, enhanced feed utilization
- ◆ Absorbs dust when sprinkled on feed, easily fit in existing feeding technology
- ◆ Easy to handle, blend to feed
